ABOUT US

Golden FX AI is artificial intelligence (AI) and quantitative trading based on a set of forex trading signals that helps determine whether to buy or sell a forex pair at a given point in time using mathematical models and algorithms to make trades, rather than relying on human intuition or analysis.

The Quantitative trading made by AI robot is designed to remove the psychological element of trading, which can be detrimental in investment or trading forex.

Robot like Golden FX AI serves you 24/5 with multiple styles or experienced strategies and it's automated. Beginners are rest assured; just copy strategy from other experienced traders.

What is Forex Market?

The foreign exchange market is a global decentralized or over-the-counter market for the trading of currencies.

This market determines foreign exchange rates for every currency. It includes all aspects of buying, selling and exchanging currencies at current or determined prices.
